**Date :** February 24, 2016

Action Wrecker Service, in Fort Worth, has preyed on TCU students by employing unlicensed tow truck operators to basically steal vehicles, by towing them from parking lots with zero tow signs posted. Their storage lot is a complete disgrace, as they are dismantling and working on vehicles within their storage lot. A TCEQ complaint was filed against them today as well, since the surface of their storage area is nothing more than waste dump. The number of TDLR complaints that were filed were astounding and considering Action had already been fined by TDLR several times before, for the same reasons, now John Kuykendall must pay and pay well with an \$18,000 fine.
