Drivers in the North Texas area are being targeted for expired inspection and/or registration stickers in parking lots of residential communities by predatory tow truck operators. Tow Companies owners know how long the process can be dragged out with their attorneys and wear vehicle owners down, it's just a big game to defraud the public..

Southwest Auto Tow by far outpaces others by scamming vehicle owners, unaware the registered owner of the vehicle would receive a Certified Mail letter, giving NOTICE the vehicle will be towed, if not corrected by 10 days.

I know in the last month, TDLR complaints on Southwest Auto Tow and Black Bull have exceeded 20 each filed thru Texas Towing Compliance links..
